

# EXTREME

# EARTHMOVING ATTACHMENTS

Boss Attachments carry Australasia's leading range of high quality earthmoving buckets, demolition equipment and attachments to meet even the most extreme challenges of the forestry, mining and construction sectors.

## OSA RS Series By Boss Attachments

- Entirely made in Hardox and Strenx
- Boasts two large cylinders
- Continuous, precision 360° rotation in both directions
- Fast, accurate and efficient jaw positioning

## Xcentric Crushers "Better-Faster-Stronger"

- World's most technologically advanced crushing bucket
- Easy, quick adjustment system
- Advanced high Inertia drive system
- Patented circular jaw movement
- SSAB Hardox & Strenx construction

## MB Dustcontrol 'We take dust control seriously'

- Spray reach from 5 metres to 100 metres
- Dust and odour control systems
- Climate control
- Atomization of hazardous fine dust emissions
- Customisable systems

## Gauss Magneti 'All the lifting power you'll ever need'

- Hydraulic-circular Electromagnetic Lifters
- All in-one unit for heavy duty steel and iron handling
- Easy and quick installation
- Can be mounted on Excavators & mobile cranes

## Tecna Hydraulic Breakers

- Italian Engineering
- 50% less components when compared to competitors
- Entirely built with Hardox and Weldox
- Impressive hit frequency and force

## Cosben Telescopic Arms 'Deeper Faster Better'

- Can your 49T excavator extract 174T per hour at a depth of 42m? With a Cosben telescopic arm it can.

## BHRH Rotating Demolition /Stone Grapples

- 2 Year Warranty
- 360° rotation circuit
- Option to operate mechanically or hydraulically with precise product placement
- Unmatched crushing forces
- Hardox construction

## Antraquip Rock Grinders

- Rugged spur gears and housing
- Powerful high torque motor
- Robust cutting drums ensure maximum production
- All American made parts and components

## Dymax Tree shear

- World leading forestry attachments
- Dual grapple arms & twin shear arms
- Replaceable high strength cutting knives
- Stronger, cleaner cutting performance

## Boss Rotary Screening Buckets

- Innovation, performance & reliability
- SSAB wear resistant materials
- Solid in construction, lighter in weight
- Suitable for a wide range of excavators and loaders
