

EXTREME

EARTHMOVING ATTACHMENTS

Boss Attachments carry Australasia's leading range of high quality earthmoving buckets, demolition equipment and attachments to meet even the most extreme challenges of the forestry, mining and construction sectors.

Boss Rotary Screening Buckets

Leading the way for outstanding innovation, performance and reliability. The ultimate expression of functionality & versatility. Unique in its kind, the BRS Series are innovative and durable in design by incorporating the very best in SSAB wear resistant materials. We have created a screening bucket that is solid in construction and lighter in weight, allowing for fitment to a wider range of excavators and loaders.

Xcentric Crusher Buckets

Turn your excavator into the ultimate crusher with the world's most technologically advanced crusher bucket, capable of delivering inexhaustible output production rates others can only dream of. Perfectly suited to the application of crushing basalt, granite, reinforced concrete & demolition materials with ease onsite. Xcentric didn't invent the crusher bucket – they just perfected it.

Dymax Forestry Attachments

The cutting edge solution for quality proven and world leading forestry attachments with dual grapple arms and twin shear arms with replaceable high strength cutting knives for stronger, cleaner cutting performance.

Gauss Hydraulic Circular Electromagnetic Lifters

All the lifting power you will ever need. No electrical connection needed, a compact, all in one solution, for heavy duty handling of iron and steel. Fast and easy adaptation to host machine with units available for carriers from 5T to 50T.

cosben®

Cosben Telescoping Arms

Deeper-faster-stronger. We've taken excavation to a HOLE new level. Can your 49t excavator extract 174t per hour at a depth of 42m? With a cosben telescopic arm it can.

Boss Hydraulic Bucket Grabs

Only bucket grab on the market with 2 year warranty and unmatched crushing power. Australia's number one Bucket Grab choice for Demolition, Forestry and rockwall contractors.

Boss Hydraulic Rotating Grabs

Largest jaw opening with smallest jaw closing and 360 rotation for perfect product placement. 2 year warranty and perfect for primary and secondary demolition.

OSA Demolition Systems

A recognized worldwide leader in the manufacture of advanced demolition work tools delivering unmatched reliability and unmatched power.

Antraquip Cutting Attachments

A recognised international leader in the design and manufacture of hydraulic cutting attachments that work harder, faster and last longer.

Tecna Breakers

Less moving parts and advanced, patented design for a level of performance that has become the international benchmark.

MB Dust Control

We take dust control seriously. MB Spray Cannons set a new performance standard for dust and odour control systems which weigh down dust particles by binding them with droplets of water (fog) so they quickly fall to the ground.

12-month warranty on all demolition and earthmoving equipment.
